09 · NAVIGATION

Desktop sidebar & mobile bottom bar

Mobile is not the desktop miniaturised. It's the five verbs that matter.

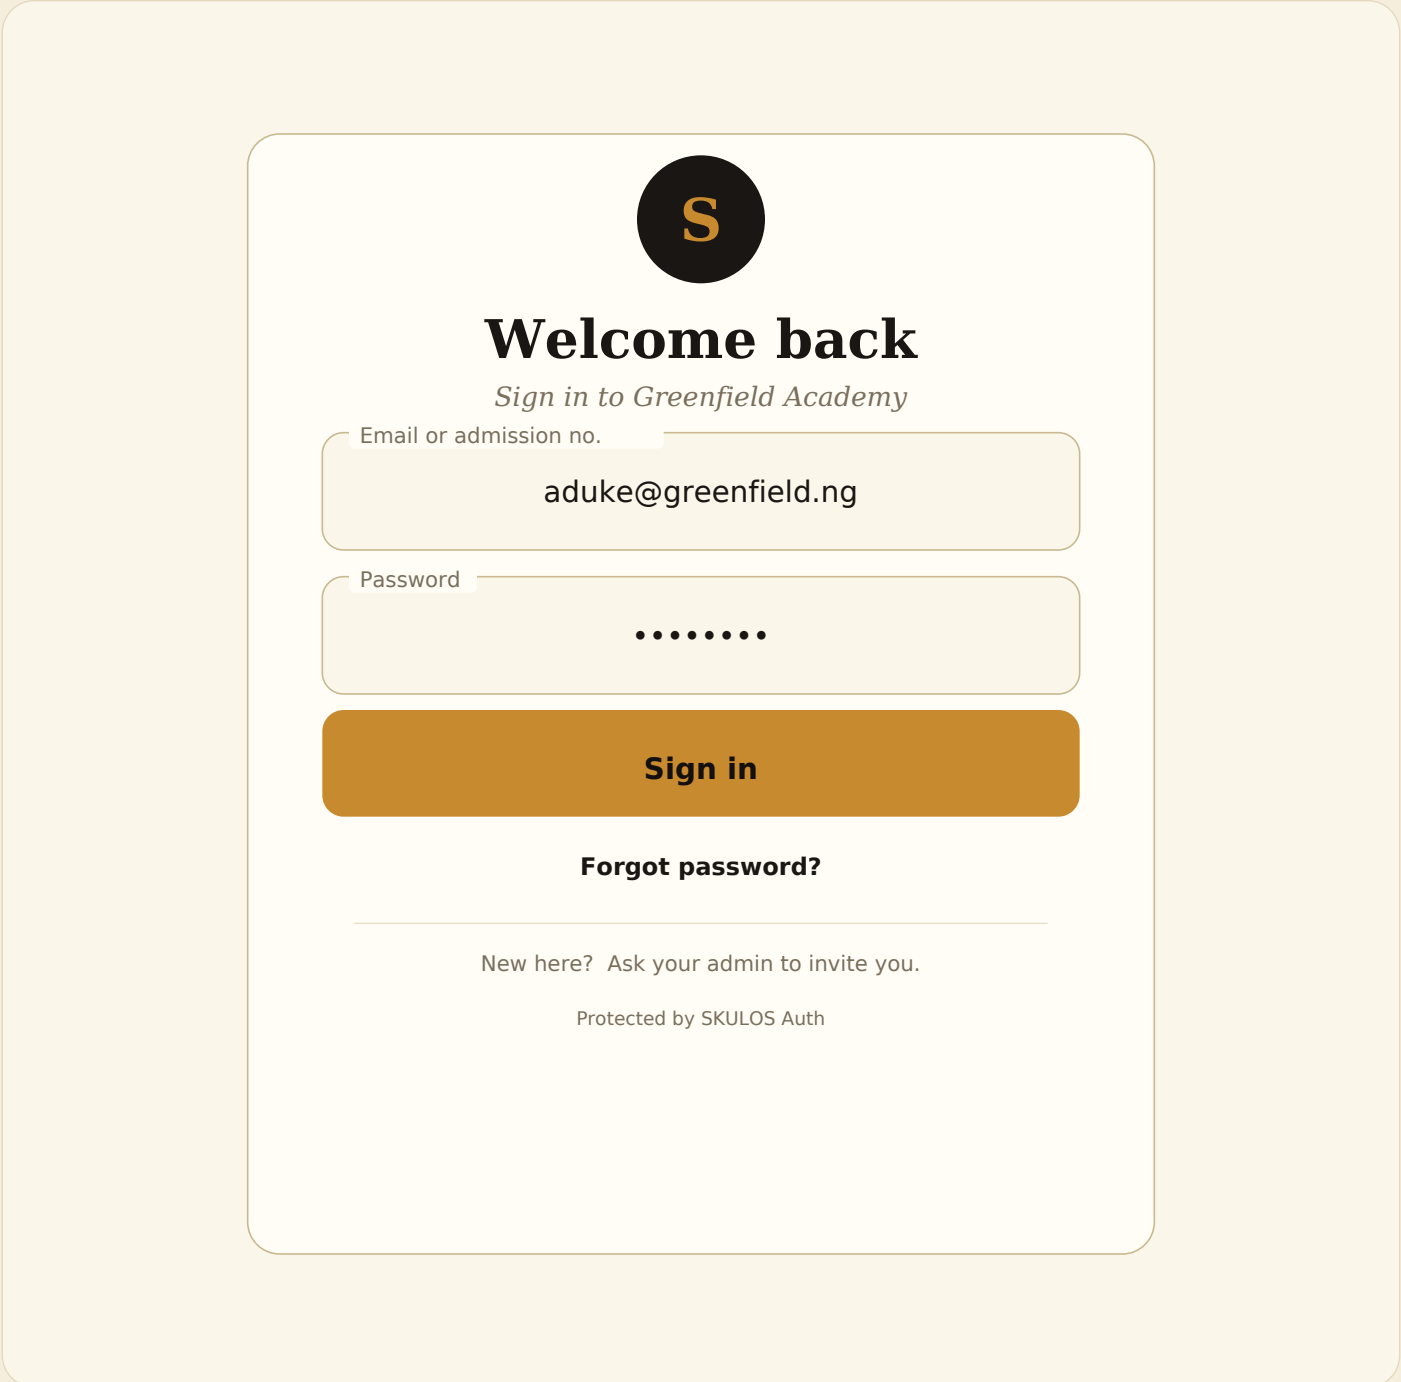

Desktop 1440px — sidebar 240px, content max 1200px, gutter 24px.
Sidebar labels LEFT, monogram icons RIGHT. Active row is CARD-filled, no colour bar.

10 · LOGIN

Centred card. Centred form.

The card sits on a paper canvas. The form is centred inside the card.

Rule 18: card is centred both axes, form is centred inside it — not left-aligned.

Every text element inside the card uses drawCentredString. Fields are the exception — value centred, label at top-left of chip.

10 · SIGNUP · SCHOOL OWNER

10 · PASSWORD RESET

Two flows, one card style

Flow A: user chooses, admin approves. Flow B: emailed reset link.

Flow A · Admin-approved

The user proposes. The admin approves.

1. **Request new password**
   User enters a new password on the reset screen. Status: PENDING APPROVAL.
2. **Admin is notified**
   Approval lands in the admin's Pending Tasks widget and by email.
3. **Admin reviews**
   Admin sees who, when, from which device, and clicks Approve or Reject.
4. **User is unlocked**
   The user's screen flips from PENDING to APPROVED. They can now sign in.

Flow B · Emailed link

The classic. Time-limited link, single use.

1. **Enter email**
   User types their email or admission number.
2. **Link is sent**
   Signed link, valid 30 minutes, single use. Copy names the school.
3. **Set new password**
   Landing page centred, matches the login card exactly.
4. **Confirmed**
   Auto sign-in on success. Old sessions revoked, audit line written.

14 · GRADING

Grading

Same shell as every module. Different verbs.

Overview | By class | Reports | Settings

Search ⌘K | Term → | Class → | Stat | **New record**

STUDENT	CLASS	CA1	CA2	EXAM	TOTAL	GRADE	POSITION
Adaobi Yusuf	JSS 2B	18	19	54	91	A	2
David Bello	JSS 2B	16	15	42	73	B	9
Esther Nnamdi	JSS 2B	20	20	58	98	A+	1
Kola Adeoye	JSS 2B	12	14	38	64	C	18
Bola Balogun	JSS 2B	15	17	46	78	B+	6
Chika Eze	JSS 2B	17	18	50	85	A	4

MODULE NOTES

· Continuous assessment split from exam. Weights configurable per school.
· Draft mode is default — Publish requires VP approval.
· AI report card generator suggests comments; teacher approves each line.
· Position is calculated only after moderation, never live during entry.

14 · ATTENDANCE

Attendance

Same shell as every module. Different verbs.

Overview | By class | Reports | Settings

Search ⌘K | Term → | Class → | Stat | **New record**

STUDENT	CLASS	MON	TUE	WED	THU	FRI	RATE
Adaobi Yusuf	JSS 2B	P	P	P	P	P	100%
David Bello	JSS 2B	P	L	P	P	A	80%
Esther Nnamdi	JSS 2B	P	P	P	P	P	100%
Kola Adeoye	JSS 2B	A	A	P	P	P	60%
Bola Balogun	JSS 2B	P	P	P	P	P	100%
Chika Eze	JSS 2B	P	P	L	P	P	96%

MODULE NOTES

· Take by class, not by roll number — pupils drag between Present / Absent / Late.
· Offline-first: if network drops the class continues, syncs when back.
· Parent is notified for Absent within 30 minutes, never for Late.
· The register locks at 12:00 for the day, edits require VP approval.

14 · FEES

Fees & Billing

Same shell as every module. Different verbs.

Overview | By class | Reports | Settings

Search ⌘K | Term → | Class → | Stat | **New record**

STUDENT	CLASS	INVOICED	PAID	BALANCE	METHOD	STATUS	DUE
Adaobi Yusuf	JSS 2B	₦ 180,000	₦ 180,000	₦ 0	Transfer	Paid	—
David Bello	JSS 2B	₦ 180,000	₦ 90,000	₦ 90,000	Card	Owing	Fri
Esther Nnamdi	JSS 2B	₦ 180,000	₦ 180,000	₦ 0	Transfer	Paid	—
Kola Adeoye	JSS 2B	₦ 180,000	₦ 0	₦ 180,000	—	Owing	Fri
Bola Balogun	JSS 2B	₦ 180,000	₦ 120,000	₦ 60,000	Cash	Part	Fri
Chika Eze	JSS 2B	₦ 180,000	₦ 180,000	₦ 0	Wallet	Paid	—

MODULE NOTES

· Naira first, ₦ before the number, thin space, group by 3.
· Waivers are recorded separately, always with a reason and approver.
· Receipts print in the school's chosen template from the marketplace.
· Payments can flow in from Paystack, Flutterwave, Monnify, bank transfer, or cash.

14 · MESSAGING

Messaging

Same shell as every module. Different verbs.

Overview | By class | Reports | Settings

Search ⌘K | Term → | Class → | Stat | **New record**

THREAD	WITH	CHANNEL	LAST	STATUS	UNREAD
Fees reminder JSS 2	Mrs Yusuf	WhatsApp	Just now	Delivered	1
Absence · David	Mr Bello	SMS	09:14	Delivered	0
Report card ready	Mrs Nnamdi	Email	08:52	Opened	0
PTA reminder	JSS 2 parents	WhatsApp	Yesterday	Delivered	4
Excursion payment	Mrs Adeoye	In-app	Yesterday	Seen	2
Behaviour note	Mrs Balogun	SMS	Mon	Delivered	0

MODULE NOTES

· One inbox: SMS + WhatsApp + email + in-app, threaded by conversation.
· Templates library per school: fees, results, absences, PTA, general.
· Every send is logged with cost, provider, and delivery status.
· Parents reply in whatever channel they used; teachers see one thread.

15 · SETUP WIZARD

Nine steps to a live school.

The wizard is not a form. It's a conversation, one question per screen.

1 School information

Name, address, motto, phone, email, curriculum body.

2 Identity

Logo, crest, primary colour, term structure.

3 School type

Nursery · Primary · Secondary · College · Combined.

4 Curriculum

Nigerian · British · Cambridge · Montessori · American · Custom.

5 Houses

Yes / No. If yes, name and colour each.

6 Continuous assessment

Yes / No. If yes, weight split for CA1, CA2, exam.

7 Upload students

Paste from Excel or CSV. Guided column mapping.

8 Upload staff

Same flow, with roles and subjects.

9 Fees

Term fees per class, discounts, siblings.

15 · KILLER FEATURES

Rare in ERPs, expected in SKULOS.

This is the differentiator list. Every one has a screen in the codebase.

Import wizard
Upload → detect → map → preview → import → undo.

Global search
One bar. Students, parents, invoices, receipts, results, books, messages.

Favorites
Pin reports, students, pages, classes, staff. Everyone has a home.

Draft mode
Enter results today, publish tomorrow. Nothing lost.

Offline mode
Attendance keeps working when the wifi drops.

AI consultant
Ask 'why did JSS 2 slip?' — SKULOS answers with data.

School website builder
Themes, admissions form, news, gallery — all wired to SKULOS.

AI report card writer
Not 'Good'. Personalised, subject by subject.

Workflow builder
Drag-and-drop admissions, transfers, leave, complaints.

Alumni portal
Graduates stay. Networking, donations, jobs.

Undo
Bulk deleted 1,000 students? Undo. Everything restored.

Command palette
⌘K. Add student, publish results, take attendance — from anywhere.

Universal timeline
Every student: admitted → paid → attended → passed → promoted → graduated.

Autosave
Every form, every 30 seconds. Nobody loses work.

School health score
One number. Attendance, fees, results, docs, storage.

Document vault
Birth certificate, immunisation, offer letters — one drawer per pupil.

Report card marketplace
Buy or sell templates. School earns.

AI exam builder
Topic + difficulty + count → a paper you can moderate.

Form builder
Any form the school needs, visually.

Wallet
Parent tops up once, pays fees, uniform, books, trips.

16 · PLATFORM OPERATIONS

Backups, retention, billing, licensing

The invisible chapters. Schools only notice when they break.

Backups

- Automatic full backup daily, incrementals every 4 hours.
- One-click restore for Platform Super Admin.
- School-level restore for the last 7 days, self-service.
- Verified restore drill runs weekly, results shown in ICT dashboard.

Retention

- Attendance kept for the current + 6 sessions, then archived.
- Login logs kept 12 months, then rolled up to monthly stats.
- Exported reports auto-delete after 30 days.
- Graduated students remain read-only for the alumni portal.
- Departed staff records anonymised after 24 months unless legal hold.

Billing & licensing

- Plans priced in Naira, billed per term or annually.
- Module licensing: Learn, Assess, Sites, AI toggled per school.
- Trial 30 days, converts to Village unless upgraded.
- Referral programme with commission tracking for resellers.
- Promo codes and partner discounts managed by Platform Super Admin.

Continuity

- Maintenance mode with a branded page, not a 502.
- Data export in Excel and JSON for any school that leaves.
- Immutable audit log for the last 24 months.
- Status page at status.skulos.app, subscribable.

Type: Playfair Display for headers, Inter for body. Serif italic for editorial.

Numbers are serif, labels are sans upper-case tracked +80.

Layout:

8pt system. 12-col grid. Sidebar 240px, content max 1200px, gutter 24px.

Cards get ONE border OR one shadow, never both. Radius 8-12, consistent per surface.

Metric rows are 1+2 or 2+2, never three equal columns.

Iconography:

Vector, 1.4pt stroke, right-aligned. Never Lucide grab-bag.

Icons live on the RIGHT of labels — inside cards, sidebars, list rows.

Login/signup:

Card centred on both axes on a paper canvas.

Every element inside the card centred; fields full-width, value centred.

Password reset supports two flows: (A) user proposes + admin approves,

(B) emailed signed link, 30 min single-use.

Copy:

Contractions, school-life words. Never 'Awesome!', 'Oops!'.

Empty states are human. Errors are advice, not blame.

Dates: 'Fri, 14 Nov'. Naira: ₦ 180,000.

Not a miniaturised desktop. Bottom bar with the five verbs per role.

Same palette, same typography, same icon rules.

Ship it like it was designed on purpose.

Because it was.

Feedback: read this end-to-end with your team once.
Then keep it beside the code, not in a Notion nobody opens.
